Advisory Information (September 2024)
Dengue Advisory for Parents and Students

PSG/CIR./1058

Dated: 06 September, 2024

Dear Parents and Students,

As the dengue season is upon us, it is crucial that we take all necessary precautions to protect ourselves and our community from this serious illness. Dengue fever is caused by the dengue virus, transmitted primarily through the bite of the Aedes mosquito.

Please follow some guidelines:

1. **Wear Protective Clothing:** - Always wear long sleeved shirts, long pants, socks, and shoes to minimise exposure to mosquito bite, especially during early morning and late afternoon.
2. **Use Mosquito Repellent:** - Apply mosquito repellent on exposed skin and clothing.
3. **Eliminate Breeding Sites:** - Ensure that there is no stagnant water around your homes or in school premises.
4. **Keep Your Surroundings Clean.**
5. **Stay Informed and Report Symptoms:** - Like fever, severe headache, pain behind the eyes, joint and muscle pain, rashes and mild bleeding. If you experience any of these symptoms, report them immediately to your parents and seek medical attention.

Your Health and Safety are of utmost importance to us.

Stay Safe, Stay Healthy!

Warm Regards

PRINCIPAL
