## INTER – HOUSE SANSKRIT SHLOK RECITATION COMPETITION

### GRADE VI

Shloka, means "song", from the root of śru, "hear", in poetic form used in Sanskrit, the classical language of India. Chanting also helps in releasing beneficial endorphins, which act as pain reliever in the body. As Sanskrit is a complete language with words for almost anything you can think of, the chanting of specific shlokas can have different effects on your life depending on the shloka and its meaning. Keeping these objectives in mind, **an Inter House Online Shlok Recitation Competition was organized for Grade VI on 31 January 2022.**
